STORY PREMISE

Seven kingdoms pledge their heirs to a covenant. When one heir is murdered, the six survivors must identify the killer before the pact binding their kingdoms claims them too. They need one another's cooperation, but each potential ally is also someone they have reason to suspect. Each represents a crown with interests that extend beyond the murder, making accusations dangerous for more than the person accused. Their investigation depends on keeping a fragile alliance intact while deciding whom to trust with evidence, suspicion and their lives.

READER INTERESTS

For readers of court intrigue, divided loyalties and murder mysteries with diplomatic consequences.
